www.eid-design.com

10 Plus points of our MSc Program

- High pass rate, including distinctions
- High success rate of finding top jobs in the design industry worldwide.
- Strong international perspective (staff & students).
- Possibility of obtaining grants & financial aid.
- Business and Management content tailored to the specific needs of Designers.
- Internationally-recognised, British-accredited MSc degree from Salford University, recently rated one of the top 10 for its teaching.
- Programmes delivered in the South of France.
- All teaching and assessment in English.
- Shared resources with partner universities in France and UK.
- Close partnership with companies & Assistance in finding internships.
- Free French lessons.
- Possibility of obtaining a joint degree (MSc in International Business & 'Ingénieur d'Affaires – BtoB Account & Project Manager), depending on previous study qualifications.
- Lower cost of living than in many other European cities with a much better quality of life on the French Riviera (St Tropez and many cultural & artistic cities of Provence are 1-2 hours' away!)...

Dates

Application deadline : 23 July 2010 / Start : mid-October 2010 / Finish : end of September 2011

Accommodation and help with administrative formalities

Shared room on campus or in private housing on French Riviera (280-400 Euros per month).

Fees and Grants

- Grants from your country's government
- The French government allocates certain grants and gives advice about studying / working in France. Please consult the French Ministry Education's website Campusfrance : <http://www.campusfrance.org> & find out, in particular, about the EGIDE grants and scholarships for Design
 - Our school awards some merit & living expenses grants in certain circumstances, especially for non-EU students
 - Financial assistance with local accommodation & travel to Salford University, UK, (for lectures & research resources) – this is only for EU students.
 - Another possibility is to work part-time during your studies - we organise Master's programme so that classes take place 2 days a week and students are therefore free to work, study, travel... for the rest of the week.
